

Transfer of personal data to a third country outside the EU/EEA

Parlameetric is a company formed and registered in Sweden with a Swedish owner-limited liability (aktiebolag; AB) operating under The General Data Protection Regulation (GDPR) and as far as possible the company's data is handled within EU/EEA.

In cases where Parlameetric AB uses, or will use, subcontractors or cooperates with partners established outside the EU/EEA, we are responsible for ensuring that these operators can guarantee a level of security equivalent to that maintained within the EU/EEA.

In order to ensure adequate protection of personal data in transfers to countries outside the EU/EEA when a decision on an adequate level of protection by the European Commission is missing, there is always a data processing agreement in place between Parlameetric AB and the respective recipients of personal data. The agreements containing but are not limited to the standard contractual clauses decided and approved by the European Commission.

In addition, where the level of protection in the recipient country cannot be considered equivalent to that within the EU/EEA, Parlameetric AB takes additional safeguards such as anonymization, pseudonymization, and encryption. Read more about this in our document **GDPR and Data-Handling**.

Thomas Strandberg, CEO

A handwritten signature in black ink, appearing to read "Thomas Strandberg".
